Month and year are good enough.

Subject: RE: upcoming meetings

I will be in Chapel Hill, NC on December 17 at the NIEHS/EPA asbestos workshop. However, my preference is to have a brief call to discuss status on that day without Carol. I would also like to have a call on January 14. I suggest using the time slot we have used for the previous calls.

I am working on a memo regarding dates of use of Libby Amphibole in Marysville from the trial transcript and shipping records. I have a few questions I need answered from the people who developed the shipping record data base. However, it looks at if neither source will shed light on the period 1957-1963. I hope to transmit a final memo this week.

We had discussed earlier having a data field in the exposure spreadsheet that had information on date of hire. I do not remember the decision on the format of the field. My preference is to have the field populated with the exact hire date (day/month/year), rather than just year or >1971.

January 14th is fine with me if it's OK with Bob to wait that long until our next status meeting. Otherwise, we could keep the 12/17 meeting and hold it without Carol.

Bob and Amishi,

If you recall, the date we set for our next phone call, 12/17, was tentative based on Carol's availability. As it turns out, she will be in India on that day and we could not find another acceptable date for us all in Dec. We would like to propose that our next call take place on 1/14/10, the day we had previously scheduled for a meeting, which was later moved to 3/4 I think. Is this date (1/14) still available for you two? If so, what time?

Thanks

Tim
